

# LESSON 3: BIG VISION

Video

## BRUTAL FACTS...It's Local

**God wants to save our communities.** <https://youtu.be/tDO8GMn7IVc>

If you want to reach lostness in your local area, then you need to know how much lostness there is in your community. A great way to do that is through calculations to get some brutal facts. Use your region data and look at what your lost community looks like.

City or region: \_\_\_\_\_

Population = \_\_\_\_\_

Assuming 90% is far from God: (Multiply population X 0.9) = \_\_\_\_\_

Congregations of 100 members needed. (Divide the last number by 100) = \_\_\_\_\_

Goal of 10% (Multiply the last number X 0.1) = \_\_\_\_\_

How many congregations of 100 members are in your region? \_\_\_\_\_

How many congregations needed to reach 10%? \_\_\_\_\_

### **BRUTALIZING YOUR AREA.**

How many years has it taken to plant those churches in your region? \_\_\_\_\_

### **How many years will it take to reach only 10%?**

Goal of 10% **X** Years the church has been established

Divided by number of congregations in your region

= \_\_\_\_\_ **years**  
To reach 10% lostness

DO YOU SEE THE BRUTAL FACTS? DO YOU SEE THE BIG PROBLEM WE HAVE?

DO YOU SEE THE GREAT NEED TO MAKE DISCIPLES THAT MAKE DISCIPLES  
SO THAT THEY MAKE MORE DISCIPLES?

**BUT THERE IS HOPE (Acts 19:8-10)**
